## Summary

Hello there, I'm Parth, a 20-year-old student currently studying at Chitkara University in Punjab. Let me share a bit about myself without sounding too full of myself.

I've always had a fascination with technology, particularly areas like IoT, cybersecurity, ethical hacking, and gaming. It's been quite a journey exploring these interests, and along the way, I've managed to pick up a few certifications in cybersecurity and ethical hacking. My knowledge extends to networking, computers, cyber defense, and ethical hacking, which I find incredibly intriguing.

One thing I've been told about myself is that I'm pretty dedicated when it comes to tasks. Whether it's studying for exams or working on projects, I try to give it my all. People also say I have some leadership qualities, but honestly, I think it just comes from trying to stay grounded and level-headed, even when things get tough.

Communication is something I've been working on, trying to express myself clearly and effectively, especially when it comes to discussing technical stuff.

I'm far from perfect, and I know there's always more to learn. But I do try to approach problems with a sense of calmness and determination, no matter how challenging they may be.

So yeah, that's me – just a regular guy with a passion for technology, trying to stay grounded and keep learning along the way.

## Experience

### Head Fivem Developer

#### Freelance

Oct 2020 - Present (3 years 9 months)

I've been working on developing FiveM Roleplay servers for GTA V for about four years now, and it's been an incredible journey. Over this time, I've built more than 30 roleplay servers, gaining a lot of experience and learning the ins and outs of server development and community management. Some of the servers I've worked on, like SVRP, CBRP, LTRP, and CTRP, have become very renowned in the roleplaying community.

Throughout this experience, I've learned the importance of teamwork and working within given deadlines. I always strive to meet and exceed expectations, ensuring that the servers run smoothly and the players are satisfied. Handling bugs and providing support have become second nature to me, and I take pride in my excellent bug handling and support skills. I've continually pushed myself to learn and improve, enhancing my problem-solving skills along the way. Working on these servers has been challenging but also very rewarding, and it has given me a deep appreciation for game development and online communities.

## Education

**Chitkara University**

Bachelor of Computer Applications (BCA), Computer Engineering

Oct 2022 - Jun 2025

## Licenses & Certifications

**Play It Safe: Manage Security Risks** - Google

E7JCLHWEF5DG

**Foundations of Cybersecurity** - Google

KKEMCU63VZRV

**Connect and Protect: Networks and Network Security** - Google

NTC3C5SDL8ZZ

**Tools of the Trade: Linux and SQL** - Google

AWBRH5K7G2ML

**The Complete Cyber Security Course - Volume 1 - Hackers Exposed Certificate** -

StationX

1-2244992033

**Volume 2 - Network Security** - StationX

2-2244992033

**The Complete Cyber Security Course - Volume 3 - Anonymous Browsing Certificate** - StationX

3-2244992033

**The Complete Cyber Security Course - Volume 4 - End Point Protection Certificate** - StationX

4-2244992033

**Java 17 Masterclass: Start Coding in 2024** - Udemy

UC-dd4a93fc-a2ba-477e-9c9f-eb105d1a855c

**Learn Ethical Hacking From Scratch** - Udemy

UC-bbdc0772-0475-4b09-9ab6-31353cd07c4a

**Complete Ethical Hacking Bootcamp** - Udemy

UC-4a45b545-d11c-4345-8431-a1c60ff593e0

 **Ethical hacking** - Internshala Trainings  
2AB1E24E-2940-7229-2B8D-CC6C998BC233

 **Master AI Prompting** - Brightso

 **Introduction to Cybersecurity** - Cisco

 **Assets, Threats, and Vulnerabilities** - Google  
KXTGTMTDN5C9

 **Sound the Alarm: Detection and Response** - Google  
2PRHPJKZ8WSR

 **Automate Cybersecurity Tasks with Python** - Google  
K6GZJVXEP753

 **Put It to Work: Prepare for Cybersecurity Jobs** - Google  
3Z7J5CA7UDEP

 **Google Cybersecurity Specialization** - Google  
9A2S9SSEQVZN

## **Skills**

Problem Solving • Cybersecurity • Threat Detection • Computer Networking • Linux • Cybersecurity Tools • Cybersecurity Incident Response • Cyber Risk Management • Cybersecurity Incident Management • Cyber Security Risk
